Preface to the Report

District Health Office,
County Health Department,
Merlins Hill,
Haverfordwest.

December, 1966.

To the Chairman and Members of the
Milford Haven Urban District Council.

Mr. Chairman and Gentlemen,

I present the Annual Report for the year 1965, the main items of which are as follows :-

Population

The estimated population showed an increase of 50 over the preceding year. There has been an increase in population of approximately 22% since 1947.

Births

The Birth Rate was lower than for recent years, and is a little below the National Rate.

There was a considerable increase in the number of Still Births, giving a rather high Still Birth Rate.

The number of Illegitimate Births showed a considerable decrease over the previous year.

Mortality

The General Death Rate remained similar to 1964, and compares very favourably with the National Rate.

The number of Deaths attributable to Cancer was above the annual average for the District. The Cancer Death Rate, however, is below the National Rate.

There was a reduction in the number of Infant Deaths over the preceding year, and the Infant Mortality Rate for the District is only slightly higher than the National Rate.

Accidental Deaths showed a considerable increase, the largest number (3) being due to road accidents.

There was only one death attributable to Tuberculosis for the second successive year.

Infectious Diseases

Apart from Measles, the District was practically free from infection during the year.

Summaries of attendance at Mass Radiography Centres, and of Immunisations carried out in the Combined Western Areas are given on page 9.

Environmental Hygiene

There are no major sanitary problems in the District. Water supply in one part of the District has been somewhat erratic in quantity and quality, but this should be capable of correction.

Preface to the Report

District Health Office,
County Health Department,
Merina Hill,
Haverfordwest.

December, 1966.

To the Chairman and Members of the
Milford Haven Urban District Council.

Mr. Chairman and Gentlemen,

I present the Annual Report for the year 1965, the main
items of which are as follows:-

Population

The estimated population showed an increase of 50 over the
preceding year. There has been an increase in population of approximately
32% since 1947.

Births

The Birth Rate was lower than for recent years, and is a
little below the National Rate.

There was a considerable increase in the number of Still Births,
giving a rather high Still Birth Rate.

The number of Illegitimate Births showed a considerable decrease
over the previous year.

Mortality

The General Death Rate remained similar to 1964, and compares
very favourably with the National Rate.

The number of Deaths attributable to Cancer was above the annual
average for the District. The Cancer Death Rate, however, is below the
National Rate.

There was a reduction in the number of Infant Deaths over the
preceding year, and the Infant Mortality Rate for the District is only
slightly higher than the National Rate.

Accidental Deaths showed a considerable increase, the largest
number (3) being due to road accidents.

There was only one death attributable to Tuberculosis for the
second successive year.

Infectious Diseases

Apart from measles, the District was practically free from
infection during the year.

Summaries of attendance at Mass Radiography Centres, and of
immunisations carried out in the Combined Western Areas are given on
page 9.

Environmental Hygiene

There are no major sanitary problems in the District. Water
supply in one part of the District has been somewhat erratic in quantity
and quality, but this should be capable of correction.

The Council has had an excellent Housing Programme over the past 15 years. Apart from the hard core of problem families, there are no exceptionally bad housing cases in the area. The 2,000th dwelling to be built by the Council will be opened during 1966.

Refuse collection and disposal, and drainage, continue to function satisfactorily. Routine surveillance of the handling, distribution of foods is carried out by the Public Health Department.

Conclusion

I wish to thank the Officers and Staff of the various departments for their co-operation, and the Members of the Council for their courtesy and consideration during the year.

I remain,
Your obedient Servant,

W. J. Y. SPEEDY

District Medical Officer of Health.

The Council has had an excellent Housing Program over the past 15 years. Apart from the hard core of problem families, there are no exceptionally bad housing cases in the area. The 2,000th dwelling to be built by the Council will be opened during 1966.

Refuse collection and disposal, and drainage, continue to function satisfactorily. Housing surveillance of the handling, distribution of foods is carried out by the Public Health Department.

Conclusion

I wish to thank the Officers and Staff of the various departments for their co-operation, and the Members of the Council for their courtesy and consideration during the year.

I remain,

Dogfish	1 box			
Tinned crab			3	10½

4. Prepared Food Premises

Sausages, meat pies and brawn, etc.	8
Fried fish shops	6
Fresh fish and shell fish	Nil

Twenty visits were made and a satisfactory standard of hygiene has been maintained.

5. Knackers Yards Nil to report

6. Slaughterhouses

One private slaughterhouse is licensed in the area and is operated by Messrs. James Bros., Wholesale Butchers.

During the year the following meat and offal was found to be unfit for human consumption -

Pigs' livers	16	parasitic
Ox livers	16	abscesses
Part sheep's livers	8	fluke
Sheep	2	moribund
Sheep	4	pathological emaciation
Calf	1	umbilical pyaemia
Pigs' heads	13	T.B.
Ox head and tongue	1	actinomycosis
Ox hearts	2	C. bovis and pericarditis
Ox lungs	1	Abscess

Sheep's livers	52	parasitic
Pigs' lungs	10	pneumonia and pleurisy
Part ox livers	64	flake
Beef	143 lbs.	bone taint
Mutton	15 lbs.	bruising

7. Bakeries and Bakehouses

Four bakeries are operated in the town, viz:-

Mr. A. E. Beddington	Brooke Avenue
Mr. R. J. Edmond	St. Davids Road
Mr. T. Llewellyn	Hill Street
Mr. W. Griffiths	Albion Street

Twenty-four visits were made during the year. One informal notice regarding cleanliness was complied with during the year.

8. Cafes, Hotels, Restaurants

There are nine cafes and restaurants in the town and there are also four hotels in the district.

Twenty-seven visits were made and the general standard of hygiene was satisfactory.

9. Licensed Premises

Thirty-three licensed premises cater for the district and the general standard of management continues to be satisfactory.

10. Food Shops

At the end of the year the following food shops existed in the area -

Fruit and vegetables	10
Butchers	11
Confectionery	11
Fried fish and chips	6
General grocery, etc.	<u>55</u>

93

One hundred and twenty-two visits were made during the year.

11. Mineral Waters

The one mineral water factory in the district is known as the Regent Mineral Water Factory. It is owned by Messrs. W. L. Thomas & Son and is a corrugated iron building having a concrete floor. Water is supplied from the town main and the manufacturing plant was supplied by Messrs. Barnett and Foster. The filler and crowning machine used is capable of dealing with eighty dozen bottles per hour.

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

2. The second part of the report is a detailed description of the methodology used in the study. It includes information about the sample, the data collection methods, and the statistical analysis.

3. The third part of the report is a discussion of the results of the study. It compares the findings with the previous research and discusses the implications of the study.

4. The fourth part of the report is a conclusion and a summary of the findings. It also includes some recommendations for further research.

5. The fifth part of the report is a list of references. It includes all the sources used in the study.

6. The sixth part of the report is an appendix. It includes any additional information that is relevant to the study.

7. The seventh part of the report is a glossary. It defines the key terms used in the study.

Total	15	Nil	Nil	Nil	Nil	Nil

GENERAL HYGIENE AND SANITATION

1. Refuse Disposal

Refuse is collected weekly from all private dwellings and premises within the Urban area and is disposed of at the Priory refuse tip where a tractor and trailer are used for controlled tipping methods.

In April the new Shelvoke and Drewry rear loading freighter was delivered.

By the end of the year a new diesel engine had been put in the Karrier 7 cu.yd. vehicle and the old Fordson 10 cu. yd. vehicle was sold.

At the end of the year 1,104 Council and private houses were served by the paper sack refuse collection system. Whilst this method is proving most satisfactory, it is not anticipated that the scheme will be extended during the coming year due to restrictions on capital expenditure.

2. Sewage Disposal

It is estimated that 97.6% of the premises in the Urban area are connected to the public sewer.

The parts not served are -

Coombs and Cellar Hill	Approx. 12 houses
Steynton Road	" 16 "
Liddaston, Havens Head, Steynton	" 69 "

3. Rodent Control

Summary of rodent treatments carried out during the year

	<u>Major</u>	<u>Minor</u>	<u>Total</u>
Dwelling houses	Nil	821	821
Business premises	Nil	50	<u>50</u>
			<u>871</u>

4. Sewers

Sewers were treated for rodent infestation in June when two hundred and six manholes were baited.

One full-time operative is employed by the Council to carry out surveys and treatments for rodent infestation. Poisons used are arsenious oxide, zinc phosphide and warfarin.

5. National Assistance Act, 1948

There were no burials under Section 50 of the National Assistance Act, 1948.

6. Public Conveniences

Public Conveniences are situated at the Market Square, North Road, The Rath, Gellyswick Road and Spikes Lane. Two urinals for the use of males only are sited at Hill Street and Victoria Road.

7. Mortuaries

One modern fully equipped mortuary is situated at Dartmouth Gardens.

8. Public Halls and Cinemas

The two cinemas operating in the town and the three public halls have separate sanitary accommodation for both sexes.

9. Public Baths

An open-air swimming pool is situated on The Rath. Sea water is pumped from the Haven and is filtered and chlorinated.

10. Camping and Caravan Sites

The Council's caravan site at Gellyswick was closed down during the year and this leaves only one caravan site in the area at Court Farm, Liddaston, with permission for six caravans.

11. General Nuisances

Number of informal notices served for general nuisances	39
Number of informal notices complied with	39
Number of statutory notices served for general nuisances	Nil
Number of statutory notices complied with	Nil
Number of cases taken to court	Nil

Ferral pigeons are still being trapped in the centre of the town, about 400 birds have been caught making a total of 600 since the traps were first used.

Pigeons are still causing a nuisance in the centre of the town and trapping will be continued until the nuisance is drastically reduced.

12. Salvage

Salvage is collected weekly from private and business premises in the district.

The following materials were salvaged during the year -

	<u>Tons</u>	<u>Cwts.</u>	<u>Qtrs</u>	<u>£</u>	<u>s.</u>	<u>d.</u>
Mixed waste paper	96	13	2	834	11	9
Fibreboard	11	18	0	121	19	6
	108	11	2	956	11	3
Scrap iron		10	0	2	0	0
Textiles	1	4	0	6	0	0
	110	5	2	£964	11	3

Total income from salvage £964.11s.3d.
